2. Applicant is advised of possible benefits under 35 U.S.C. 119(a)-(d), wherein an application for patent filed in the United States may be entitled to the benefit of the filing date of a prior application filed in a foreign country.

### ***Specification***

3. Error appears in the Specification is corrected as shown below.

Page 2,

Line 12, "ads" should be -- adds --.

### ***Drawings***

4. The record indicates that the Notice of Draftsperson's Patent Drawing Review (PTO-948) was filed to the applicants on 11/6/03. However, the applicants state that it was never received. Thus, a copy of PTO-948 is attached in the current Office Action.

***Allowable Subject Matter***

5. **Claims 1-12** are allowed.

6. The following is an examiner's statement of reasons for allowance:

The prior art of record do not teach or suggest the limitation of the claimed method for generating the customer PDF document for printing on demand with a PDF engine using a data XML file and a design XML file, wherein the customer PDF document generated using the data and design XML files is generated at the site of the customer.

As noted by the applicant, see pages 7-10, filed on 11/8/04, the applicant's invention is different form the teaching of Hansen (U.S. Patent No. 6,509,974) and Brooke et al. (U.S. Patent No. 6,748,569) since they do not disclose creating the printing PDF documents using the claimed data XML file and design XML at the customer site.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
